PROFESSIONAL SUMMARY

Computer Science Engineering graduate with strong foundational knowledge in Python, SQL, OOP, DBMS, REST APIs, HTML and CSS. Hands-on experience developing academic projects involving web applications, backend functionality and database integration. Seeking a Junior Python Developer role to apply programming skills and build scalable software solutions.

TECHNICAL SKILLS

Programming: Python, Java

Web Technologies: HTML, CSS, JavaScript

Backend: Python, REST APIs, Django/Flask

Databases: MySQL, SQL, MongoDB

Tools: Git, GitHub, VS Code

Core Concepts: OOP, Data Structures, DBMS, CRUD Operations, Exception Handling

PROJECTS

E-Commerce Web Application

Technologies: Python, Django/Flask, REST API, MySQL, HTML, CSS, JavaScript

- Developed an e-commerce web application with product browsing, user management, cart and order functionality.
- Implemented backend APIs and database operations for managing products, users and orders.
- Integrated frontend components with backend services to support smooth application workflows.

Student Dashboard Mobile Application

Technologies: Python, REST API, MySQL/MongoDB

- Developed backend functionality for a student dashboard application to manage student-related information.
- Implemented API-based communication for retrieving and managing student data.
- Designed database operations for efficient storage and retrieval of application data.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Sri Venkateshwara Institute of Technology (SVIT) | 2025

CERTIFICATIONS

- Python Programming
- SQL / Database Management
- Web Development
- Git & GitHub

SOFT SKILLS

Problem Solving • Communication • Team Collaboration • Quick Learning • Adaptability
